Dear Jessica

I refer to the one year follow up review for the teaching quality and student achievement and progress domains following Beldon Education Support Centre Public School Review in Term 1, 2021.

I am advised that Craig Skinner, Director, Public School Review and Kelly Barker, Principal, Leda Education Support Centre, met with you, your deputy principal and members of staff, to consider the extent to which the school has made sufficient and sustainable progress against the report's recommendations for the domains listed above.

The advice received confirms the school has demonstrated sufficient and sustainable progress towards meeting the Standard in relation to the recommendations in each domain.

I have been informed that you have taken a strategic approach in building a culture of school improvement where all stakeholders feel valued and included. Your commitment to whole school processes and inclusive practices is providing the foundations for student academic, social and emotional progress.

Your efforts to develop the data literacy of staff through the collection and analysis of valid student achievement data are noted. In addition, data is being used to track student progress and evaluate programs and this is supporting positive changes in the school.

Beldon Education Support Centre is to be congratulated for its professional commitment by first, noting the areas for improvement and second, implementing strategies that have resulted in the improvements desired.

The next Public School Review of Beldon Education Support Centre, inclusive of all domains, is scheduled for 2025. You will be formally notified in the 2 terms leading up to your school's scheduled review.

I wish you and the staff continued success in your endeavours to provide high quality education for your students.

Yours sincerely
